IT TECHNICAL SUPPORT INTERN

RealPage Philippines

June 2019 - October 2019

- Installed hardware and software
- Configured desktops and laptops
- Troubleshoot Windows issues
- Assisted users with technical concerns

FREELANCE TECHNICAL SUPPORT

June 2015 - March 2025

- Computer repair
- Network setup
- Software installation
- Hardware troubleshooting

PROJECTS

Inventory Management System

PHP | JavaScript | MySQL | CSS | HTML

- Developed a web-based Inventory Management System to manage and track company IT assets
 - Implemented Asset Inventory Management for monitoring and maintaining company equipment
 - Developed a Software License Tracker to record and monitor software licenses, expiration dates, and compliance
 - Built a User Device Tracking module to assign and monitor company-issued devices per employee
 - Implemented Asset Transfer functionality for transferring assets between users or departments while maintaining asset history
 - Developed an Accountability Form generation feature with printable reports for employee asset assignments
 - Created department-based dashboards, redirecting users to dedicated IT or Accounting pages with appropriate permissions and read-only access where applicable
 - Implemented secure user authentication, password management, and profile update functionality
- Internal company project (source code not publicly available)**

SurFood: Online Food Donation Platform (Capstone Project)

AndroidStudio | Java | MySQL | PHP

- Developed an Android-based food donation platform that connects food donors with recipients to help reduce food waste
- Implemented role-based access for Donor and Recipient users with separate features and interfaces
- Built a request management feature where recipients can request donations and specify the quantity needed
- Integrated push notifications to notify users of new donation requests, messages, and donation updates
- Designed a news feed that displays available food donations and recipient requests
- Participated in application design, feature development, testing, and debugging as part of the capstone team

EDUCATION

Bachelor of Science in Information Technology

University of Cebu - Main Campus

May 2014 - December 2020

CERTIFICATION

- Beehive MOOC
 - MySQL Internship Program
-

AFFILIATION

CFC - Youth For Christ - Mission Volunteer

October 2015 - Present

CFC - Singles For Christ - Unit Head

October 2019 - Present

- Beehive MOOC
- MySQL Internship Program
